MMV

MINUTERIA MECCANICA VALSESIANA S.R.L.

Company

Since 1981 MMV has been manufacturing high quality precision turned parts, mainly in brass and according to customer's drawing.

MMV can provide a variety of machining processes as turning, drilling, milling, thread cutting, broaching, etc. on different kind of materials (brass, aluminium, bronze, stainless steel, free machining steel, etc.), starting from drawn bar in different shapes (round, hexagonal, square) ranging from Ø6 mm to Ø65 mm.

Here below the industrial sectors we are able to consider:

- Automotive
- Industrial valves
- Chrome plated valves
- Heating equipments
- Fittings
- Electrical and electronic industry
- Motorcycles, bicycles
- Fixing systems, etc...

Quality

Our state of the art machinery operated by highly skilled and experienced technicians give us high production capability, supported by an efficient and systematic quality control management with SPC and according to UNI EN ISO 9001:2008.

kind of materials

Bar in different shapes (round, hexagonal, square) ranging from Ø6 mm to Ø65 mm.

Brass:

- Standard: CW614, CW617, CW608N
- Pb free / Ecobrass: CW510L, CW724R
- Others: CW602, CW626

Aluminium:

- Alloys
- 2011
 - 2024
 - 6026
 - 6082
 - 7075

Steel:

- Free machining steel
- Stainless steel
- AISI303 - AISI304

Capacity

Conventional multi-spindle

Production of simple and fast manufacturing parts as well as more complex parts, ranging from Ø4 to Ø26. Machinery equipped with pick-up for the production of control rods, gate rods, bodies and fittings, headvalve bodies...

- GM20
- GS20
- GM25
- Tornos AS14

Bar transfer

Both easy and complex parts with short lead time and high volume productions.

- Buffoli Transbar
- Gnutti Bar turning

CNC Machines

Manufacturing of complex parts.

- Mori Say 6-26
- GMC35,
- Proteo 42
- Sprint 32-8

Production batches

We can manufacture both 1.000 pcs and 10.000.000 pcs.

Assembly and packing

According to customer's request, we make also in house assembly on the parts and packing in cardboard boxes or plastic bags.

Upon request we can offer polishing and different types of plating as well as heat treatments.

ADAPTERS – HOSETAILS FOR PLASTIC HOSES

BRASS RINGS

HYDRODIVERTER RODS

CONTROL RODS

WIRE TERMINAL CONNECTORS

PINS FOR BALL VALVES

BALL RODS

HANDWHEELS

RODS

GATE RODS

INSERTS FOR PLASTIC INJECTION

STEMS/CENTRAL RODS

BODIES/FITTINGS

BRONZE PARTS

HEADVALVE BODIES

STEEL PARTS

HEAT-TREATED PARTS

ALUMINUM PARTS

CHROME OR NICKEL PLATED PARTS

OTHERS PARTS

ASSEMBLY AND PACKAGING
